## Overview

CedCommerce Vendor Table Rate Shipping Extension is an Addon for CedCommerce Multi-Vendor Marketplace. This extension is very useful for vendors in case they want to set table rate shipping for their products. This module is dependent on Vendor Multi Shipping Addon. With the help of this module vendor can allow table rate shipping method for their products, as well as vendor can export the rates of his products in the form of CSV file. Vendor can import his custom table rates by filling rates in exported CSV. Vendor has the authority to enable or disable this functionality for their products. Vendor has to set the shipping address then only the customer will see the royal mail shipping rate for the vendor's products. Admin has full control over this module and can enable or disable this functionality.

Since this is an addon and is dependent on Vendor Multi Shipping Addon therefore, CedCommerce Multi-Vendor Marketplace and Vendor Multi Shipping Addon have to be installed before installing Vendor Table Rate Shipping otherwise, the addon won't function properly.

## Configuration Settings

The configuration settings can be opened from **CsMarketplace > Vendor Configuration** in the menu section.

### i. **Enable Table Rate Shipping for Vendor**

When set to Yes, vendor table rate shipping will be enabled and vendor will see this option in vendor shipping method panel. Otherwise table rate shipping will not be available for vendor.

### Vendor Multi Shipping

	▲ Before Enabling this please enable Table Rate Shipping Method	

## ii. Enable the Default Table Rate Shipping Method

This module is based on the Magento default table rate shipping method. So this table rate shipping method should be enabled by the admin. Admin can enable the table rate shipping method by going to the **System -> Configuration -> Shipping Method** section. Here you will see the “Table Rate shipping” group and set the “Enabled” field to “yes”. Now the vendor table rate shipping will be available to the vendor and the customer will see the vendor table rate shipping.

## Vendor Configuration

When the Vendor Table Rate Shipping Addon has been installed and configured by the admin, then vendor can configure the table rate shipping method in the vendor panel. Firstly, the vendor has to set the shipping settings in their panel. In it they have to set their shipping address. Then he can set the shipping method setting in vendor panel.

To open this page, login as vendor and go the **left navigation bar, Settings -> Shipping Method**

### i. Active

From here vendor can enable/disable the royal mail shipping method for their products.

### ii. Condition

Here the vendor can set the condition which he wants to allow for his products. The allowed condition will be shown with the vendor products.

### iii. Export CSV

Here the vendor can export his rates in the form of CSV file.

### iv. Import

Here the vendor can import his custom rates of his products by filling the rates in exported CSV file.

## Table Rate Shipping on Cart Page

Customer will see vendor wise table rate shipping on the cart page. This module is dependent on Vendor Multi Shipping Addon, so you must install multi shipping. In the attached snapshot you can see that there are two products in the cart associated with different vendors. Here you will see the vendor "abc" has enabled the table rate shipping for his products. "o the customer will see vendor wise table rate shipping for this vendor. If any vendor has not enabled any shipping method then the customer will get the rates defined by the admin for the vendor's products.
