Overview

Vendor Aramex Shipping addon for CedCommerce Multi-Vendor Marketplace for Magento 2 makes the use of Aramex rate calculating API in order to calculate the shipping costs. Shipping cost is calculated on the basis of the weight of the product, origin address and the destination address. This shipping method works for **United Arab Emirates** and **Jordan** only.

This addon is very useful for vendors if they want to set Aramex shipping for their products. This module is dependent on Vendor Multi Shipping Addon. With the help of this module, vendor can allow different Aramex shipping methods for his products. Vendor has the authority to enable or disable this functionality for his products. Vendor has to set the shipping address then only the customer will see the Aramex shipping rate for the vendor's products. Admin has full control over this module and can enable or disable this functionality.

Since this is an addon and is dependent on Vendor Multi Shipping Addon therefore, CedCommerce Multi-Vendor Marketplace for Magento 2 and Vendor Multi Shipping Addon have to be installed before installing Vendor Aramex Shipping otherwise, this addon won't function properly.

Configuration Settings

The configuration settings can be opened from **Marketplace > Vendor Configuration** in the menu section.

i. **Enable Aramex Shipping for Vendor**

When set to Yes, Vendor Aramex shipping will be enabled and the vendor will see this option in the vendor shipping method panel, otherwise Aramex shipping will not be available for vendor.

Enable Vendor Aramex Shipping [WEBSITE]
Before enabling this please enable Aramex Shipping for admin

ii. **Enable Aramex Shipping Method from Admin**

This module is based on the Aramex shipping method for Magento 2 which could be made available by installing CedCommerce Aramex Shipping extension. So Aramex shipping method should be enabled by the admin. He can enable the Aramex shipping method by going to the **Stores > Configuration > Shipping Method** section.

Here you will see the “Aramex Shipping” group and set the “Enabled for Checkout” field to “yes”. Now Vendor Aramex shipping will be available to the vendor and the customer will see Aramex Shipping rates at frontend on the cart and the checkout page.

Vendor Configuration

When the Vendor Aramex Shipping addon has been installed and configured by the admin, then the vendor can configure the Aramex shipping method in the vendor panel. Firstly, the vendor has to set the shipping settings in his panel. In it he has to set his shipping address. Then he can set the shipping method settings in the vendor panel. To open this page, the vendor has to login to his vendor panel and go the **left navigation bar, Settings > Shipping Method**.

i. Active

From here the vendors can enable/disable the Aramex shipping method for their products.

ii. Allowed Methods

Here the vendors can set the methods which they want to allow for their products. Only the allowed methods will be shown with the vendors' products.

Aramex Shipping on Cart Page

Customer will see vendor wise Aramex shipping on the cart page if the settings have been properly set by the vendor and admin. This module is dependent on Vendor Multi Shipping Addon of CedCommerce Multi-Vendor Marketplace for Magento 2, so you must install multi shipping before the installation of Vendor Aramex Shipping addon.

In the attached snapshot you can see that there is a product in the cart associated with a vendor. Here you will see the vendor has enabled the Aramex shipping for his products. So the customer will see vendor wise Aramex shipping for this vendor. If any vendor has not enabled any shipping method, then the customer will get the rates defined by the admin for vendor's products.

Item	Price	Qty	Subtotal
 Shirt	\$200.00	1	\$200.00
