Overview

Vendor First Flight Shipping is an addon for CedCommerce Multi-Vendor Marketplace for Magento 2. This addon is useful for vendors in case they want to set charges of First Flight shipping for their products. This module is dependent on Vendor Multi Shipping Addon. Vendor First Flight shipping is similar to First Flight shipping method for Magento 2. With the help of this module vendors can enable or disable First Flight shipping methods for their products as well as they can set specific countries for shipping of their products.

Vendor has to set the shipping address then only the customer will see the First Flight shipping rate for the vendor's products. The shipping address for First Flight is divided into three zones as **Intracity, withinstate & rest of India**.

This Shipping method is specifically only for India. Each zone contains corresponding cities and shipping rates are charged according to the specific zone and weight specified in the specific zones. First Flight shipping method calculates the charges on the basis of the weight of the products. The weight of the products is taken in the unit of gram for First Flight Shipping. Admin has full control over this module and can enable or disable its functionalities.

Since this addon is dependent on Vendor Multi Shipping Addon therefore, CedCommerce Multi-Vendor Marketplace and Vendor Multi Shipping Addon have to be installed before installing Vendor First Flight Shipping otherwise, this addon won't function properly.

Configuration Settings

The configuration settings can be opened from **Marketplace > Vendor Configuration** in the menu section

i. **Enable First Flight Shipping for Vendor**

When set to Yes, Vendor First flight shipping will be enabled and the vendor will see this option in the vendor shipping method panel, otherwise First Flight shipping will not be available for vendor.

Enable Vendor Singapore Post Shipping	<input type="text" value="Yes"/>	[WEBSITE]
	Before enabling this please enable Canada Post Shipping for admin	
Enable Vendor Firstflight Shipping	<input type="text" value="Yes"/>	[WEBSITE]
	Before enabling this please enable Firstflight Shipping for admin	

ii. Enable First Flight Shipping Method from Admin

This module is based on the Magento 2 First Flight shipping method. So this shipping method should be enabled by the admin. Admin can enable the First flight shipping method by going to the **Stores > Configuration > SALES > Shipping Settings** section.

Here you will see the “First Flight shipping” group and set the “Enabled” field to “yes”. Now the Vendor First flight shipping will be available to the vendor and the customer will see the Vendor First flight shipping method on frontend.

FirstFlight Shipping

Vendor Configuration

When the Vendor First Flight Shipping Addon has been installed and configured by the admin, then the vendor can configure the First Flight shipping method in the vendor panel. Firstly, the vendors have to set the shipping settings in their panel. In it they have to set their shipping address. Then he can set the shipping method setting in the vendor panel.

To open this page, login as vendor and go the **left navigation bar, Settings > Shipping Method**

i. Active

From here the vendors can enable/disable the First Flight shipping method for their products.

ii. Allowed Country

Here the vendor can set the countries for which he wants to allow First Flight Shipping.

First Flight Shipping on Cart Page

Customer will see vendor wise First Flight shipping on the cart page. This module is dependent on Vendor Multi Shipping Addon, so you must install multi shipping before the installation of Vendor First Flight Shipping addon.

In the attached snapshot you can see that there are two products in the cart associated with different vendors. Here you will see that the vendor “John” has enabled the First flight shipping for his products. So the customer will see vendor wise First Flight shipping for this vendor. If any vendor has not enabled any shipping method then the customer will get the rates defined by the admin for the vendor’s products.

Item	Price	Qty	Subtotal
 P1	\$40.00	1	\$40.00
